

Award-winning

Practical Hydraulics

WEEK 1

An intensive, 5-day, hands-on workshop covering mobile and industrial hydraulics.

KEY TOPICS:

- How To Work Safely with Hydraulics
- Introduction to Hydraulics
- Proactive Maintenance
- How To Read Schematics
- How Hydraulic Components Work
- Basic Troubleshooting Skills
- How To Select and Use Hydraulic Diagnostic Equipment
- Lockout and Tagout

Over \$200,000 of state-of-the-art trainers, cutaway models, and visual aids are used in this multiple award-winning, hands-on workshop for a true, hands-on experience!

The most successful hydraulic training workshops in the country!

WEEK 1

Presented by
Rory McLaren
of the

Salt Lake City, UTAH

workshop OUTLINE

SAFETY FIRST without exception!

This is the ONLY hydraulic workshop in the country that will show you how to work safely with hydraulics from beginning to end. The following topics will be presented in detail:

- How To Work Safely with Hydraulics
- Basic Fluid Power Principles
- How To Read Schematics
- Hydraulic Pumps
- Pressure Control Valves
- Directional Control Valves
- Check Valves
- Flow Control Valves
- Actuators
- Accumulators
- Contamination Control
- Proactive Maintenance & Filtration
- Closed-loop (Hydrostatic) Systems and more . . .

workshop Reference MATERIALS

All of the materials used in this workshop are written and produced by our own team of hydraulic maintenance professionals.

Workshop Manual- Author: Rory S. McLaren

Comprehensive textbook covering all your workshop material.

Fluid Power Trainer Student Workbook-

Trainer activities; Component comparison data; Pump performance graphs; Valve performance data; Circuit schematics and problem-solving exercises.

An Introduction to Closed-Loop Oil Systems-

A step-by-step approach to learning what you need to know about your closed-loop systems.

A Practical Guide To Filtration for Hydraulic Systems-

Everything a maintenance professional needs to know about filtration.

How To Interpret Fluid Power Symbols-

A handy manual that breaks symbols down to a level that makes them easy to understand. Includes self-test exercises.

Complete Guide to ANSI/ISO Fluid Power Symbols-

Any symbol you may encounter in your hydraulic schematics is in this handy pocket-guide.

WEEK 1 PRACTICAL HYDRAULICS WORKSHOP REGISTRATION FORM- Attend all 5 days for only \$2295

To register for this workshop by mail, send this form to:
FLUID POWER TRAINING INSTITUTE™

P.O. Box 711201, Salt Lake City, UTAH 84171-8201

To register for this workshop by phone, call: (888) 222-3421
or fax this form to: (801) 908-5734, or register online at: www.fpti.org

Please enroll the participants listed below for the following
5 day Practical Hydraulics Training Workshop:

Please contact me regarding an in-plant workshop.
